## Who is this course for?

Are you involved in managing complex projects?  
Or would you like to move into Project Management?  
**This Diploma of Project Management is designed just for you.**

Learn how to manage complex projects based on the international Project Management Body of Knowledge PMBOK – project, time, scope, cost, communication, procurement, risk...

Develop practical project management skills and learn how to manage the overall project, bringing it in on time and under budget!

### Here's what one of our students thinks...

"I would recommend this training to others as the support is great. The most significant impact I have had is being able to solidify my Project Management knowledge and expand my understanding in areas, such as various ways to approach programming for a project, rather than just relying on proprietary computer based programs."

Graham Bickerstaf

## Where can this course take you?

Becoming a Professional Project Manager with formal project management qualifications is a MUST have to advance your career in Project Management. Completing your Diploma of Project Management will also give you project management letters after your name and practical project management skills and techniques that are recognised and valued Australia wide and internationally.
