

# Become Qualified with Your RIIWHS601E Establish & Maintain the WHS Management System (G7 Mining)

## Entry Requirements

- Have 3+ years of experience in mining supervision or mining management
- Have completed previous courses in Mining Risk Management and Workplace Health and Safety within Mining
- Have worked extensively with WHS Systems
- Have the ability to create a mining WHS system and mining risk management system

## Duration

1 Week – 8 Weeks depending upon your previous experience and how much time you can allocate to completing your assessments

“I found the G3 and G7 easy to follow with good examples. The aspect that really benefited me was applying knowledge to create my own procedures relevant to the company. I would recommend this others who require online training, especially people aiming to be SDE or a safety manager.”

Dane Nielson

## Gain Your G7

As of 01 January 2012, the unit RIIWHS601E Establish and Maintain the WHS Management System Unit (known as G7 Mining Course) is required to be held by a senior member in all mining organisations as defined in the Coal Mining Safety and Health Act 1999 and as required by the Coal Mining Safety and Health Advisory Council Australia.

## How Does The G7 Course Work?

1. A phone chat with your Trainer to ensure your suit ability to this course – that you have previous knowledge and experience in working with Risk Management Systems & WHS Systems in mining environments. This can be done prior to your enrolment. Call us today on 61754573334 or 1800 998 500 (within Australia).
2. Enrolment process completed
3. A tour of your online student area and course materials (takes 20 mins with your Global Training Support staff member)
4. Phone appointment with your Trainer to determine relevant projects for your assessments. . If you have already reviewed and developed mining risk management systems or safety systems in the past, and you can still access the documents, you may be able to use these towards your assessments.
5. Complete your Assessments – creating a Mining Risk Management System
6. Assessments are submitted, marked, extra evidence provided or another phone session booked with your Trainer if needed
- 7..Statement of Attainment awarded – emailed to you and also posted in the mail
